Shimmer & Shine

British designer Tom Dixon has captured that hard-to-describe shimmering iridescence you see on a soap bubble, or on the wings of a dragonfly, in his latest collection. The high gloss texture, with deep inky tones of black oil, has been recreated on a series of free-form black glass vessels with a hammered finish. This new range comprises scented candles, diffusers and an organically shaped mouth-blown vase.

ORDER THE NEW RANGE FROM WWW.TOMDIXON.NET.

Marvel at Marble

How about a statement furniture piece for the home, or some design art? The Marble Collection is a series of avant-garde furniture, including tables, chairs and stools made of quality marble. Part of Italian Detail by Polybuilding, the main pieces include the Swirl table (pictured above), the reworked Him and Her chair, and the Swivel stool. You can even use the Him and Her chair outdoors.

Summer Sunshine

Summer is all about bold, bright hues! Inject some sunshine into your home with Ikea's summer range, comprising decor items such as multicoloured cushion covers and a striking orange wire bench (pictured left). With more time spent outdoors, create ambience with lantern tealight holders (pictured above) and a solar-powered LED pendant lamp.

IKEA'S SUMMER 2016 RANGE WILL BE AVAILABLE IN STORES THIS MONTH.
